MEMORANDUM FOR: Mr. Garrison

SUBJECT : Proposed [redacted] Regulations Pertaining to Motor Vehicles.

25X1

REFERENCE : Memo dtd 9 Apr 54 to C/RCS fr COA/DDP, same subject.

1. The referenced memorandum, which is attached, is the type of thing which the Regulations Control Staff cannot do and is the kind of issue which I believe you must take personal leadership in solving.

2. From a hasty examination of the proposed Regulations, they appear to me to be quite general and dependent upon the development of specifics later. It would be far better if we could develop a few specifics now. I would also like to go as far as possible in delegating authority to the field and, at the same time, insure that sound and defensible administrative practices are put into effect.

3. I would appreciate it very much if you would take the leadership in this matter and see if we can't get these Regulations ironed out and published in a minimum of time. If you cannot obtain agreement with the Office of the Deputy Director (Plans), then please reduce the disagreements to their narrowest area and present them to me for further handling.
